

4.6.1 Release Notes

4.6.1 is a hotfix release and will be deployed this Thursday, 18th of December.

Hotfix

- 2013 Websites: The new item menu for document lists now displays correctly. Options (e.g. Word, Excel etc.) are no longer hidden.
- Twitter app now renders emojis (emoticons) correctly. Previously errors could prevent the page from rendering.
- Sync'd items now display the correct author.

4.7 Advance Notice

- The site URLs for ALL public and portfolio sites are changing to avoid exposing usernames.
- Any bookmarks or links to these sites will no longer work. The new site address will be generated and similar to class and groups sites URLs.

Technical Bulletins

We're also continuing to create new user documentation and technical resources:

- [Inserting & Embedding Videos](#)
- [Student Portfolios](#)
- [Newsletter](#)
- [Form Viewer](#)
