The Staff Room is your school's online resource for teachers and staff. Here, you can:

- Post staff news and announcements, such as new teachers, volunteer postings, and upcoming events.
- Store important documents, like forms and policies, or even share documents for staff collaboration.
- Share information, like school calendars and links to important sites.
- List who's away, using the Away Today feature.

These are just a few examples. Whatever you choose to do, you can personalize it to make the site work for your school.
