

2013 Portal User Guide

Scholantis Portals allow you to access a wide range of resources in your school district. With Portals, you can:

- Access announcements, calendars, and information from the district, departments, and schools.
- Find information about school or district services, such as technical support, forms, or links to other systems.
- Collaborate with other users in a group. Whether it's a classroom, an after school club, or other staff project.
- Search for resources.
