

# Recommended Apps

When you go to install an app to a page, many different apps are available. Below is a list of commonly used apps and what they do.

| Category                 | Part (App)                                | About the App  | Additional Information   |
|--------------------------|---|--|--|
| <b>Apps</b>              | <b>Calendar</b>                           | Use the Calendar to schedule meetings and other events with your group. This installs a full month calendar and is often not used unless on its own page.  | To include a partial calendar, see <a href="#">Event Summary</a> , or <a href="#">Event Summary Week View</a> under <a href="#">Scholantis</a> (below)   |
|                          | <b>Documents</b>                          | This system library was created by the Publishing feature to store documents that are used on pages in this site.  | See <a href="#">Documents</a> under the <a href="#">Scholantis</a> category. Documents can also be easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> .                                |
|                          | <b>Featured Links</b>                     | A list of links that are featured on the home page. <b>Note:</b> This is not the preferred format for Featured Links. See the <a href="#">Scholantis</a> section or <a href="#">Featured Links</a> for an even easier way to install them.   | These can be easily added using the <a href="#">Featured Links</a> or <a href="#">Quick Links</a> . They can also be easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> .              |
|                          | <b>Featured Stories</b>                   | Highlight and feature information on your site by adding images, text and links. <b>Note:</b> This is not the preferred format for Featured Stories. See the <a href="#">Scholantis</a> section or <a href="#">Featured Stories</a> for an even easier way to install them.          | These can be easily added using the <a href="#">Featured Stories</a> . They can also be easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> .   |
|                          | <b>Links</b>                              | Use the Links list to share links to relevant information, media and content with your class or group. <b>Note:</b> This is not the preferred format for Links. See the <a href="#">Scholantis</a> section or <a href="#">Featured Links</a> for an even easier way to install them. | Links can be easily added using the <a href="#">Featured Links</a> or <a href="#">Quick Links</a> functionality. They can also be easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> . |
|                          | <b>News &amp; Announcements</b>           | Use the Announcements list to track upcoming events, important dates or other news. <b>Note:</b> This is not the preferred format for Announcements. See the <a href="#">Scholantis</a> section or <a href="#">News and Announcements</a> for an even easier way to install them     | See <a href="#">News and Announcements</a> for the best way to work with announcements.  |
|                          | <b>Special Announcements</b>              | Use the Special Announcements list to post important messages on the home page of your site.   | These can be easily added to a site using the <a href="#">Manage Site</a> functionality.   |
|                          | <b>Summary Links</b>                      | Allows authors to create links that can be grouped and styled  |  |
|                          | <b>Table of Contents</b>                  | Displays the navigation hierarchy of your site   |  |
| <b>Media and Content</b> | <b>Content Editor</b>                     | Allows authors to enter rich text content.   |  |
|                          | <b>Page Viewer</b>                        | Displays another Web page on this Web page. The other Web page is presented in an IFrame.  |  |
|                          | <b>Picture Library Slideshow Web Part</b> | Use to display a slideshow of images and photos from a picture library.  |  |
| <b>Scholantis</b>        | <b>Announcement Summary with Image</b>    | Summary of announcements with an image thumbnail.  | Announcements can also be easily added to a Class site, Group site, or My Public site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> .  |
|                          | <b>Announcements Summary</b>              | Summary of Announcements   | Announcements can also be easily added to a Class site, Group site, or My Public site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> .  |
|                          | <b>Create Site Button</b>                 | A button that creates a site of specified type.  | This feature is built in with a <a href="#">Scholantis</a> installation.   |
|                          | <b>Custom List View</b>                   | Displays content from a selected List on the current Web using the specified HTML as a view template.  | For how to install and configure this app, see <a href="#">Custom List View</a> and <a href="#">Custom List View Templates</a> .   |
|                          | <b>Document Download</b>                  | Displays a list of documents for download.   |  |
|                          | <b>Documents</b>                          | Displays a list of documents that can be opened with Office Web Apps or client software if the feature is enabled on the site.   | Documents easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> for details.  |
|                          | <b>Events Summary</b>                     | A summary of events from the calendar.   | The events summary is easily added to a Class site using the <a href="#">Manage Site</a> functionality. See <a href="#">Create a Class or Group Site</a> for details.  |

|                                      |   |  |
|--------------------------------------|---|--|
| <b>Events Summary Week View</b>      | A summary of events from the calendar displayed in a weekly format.   |  |
| <b>Facebook</b>                      | Displays public facebook posts from a public Facebook account.  |  |
| <b>Featured Links</b>                | Add a list of links with a stylistic chrome.  | These can be easily added using the <a href="#">Featured Links</a> or Quick Links. They can also be easily added to a Class site using the Manage Site functionality. See <a href="#">Create a Class or Group Site</a> . |
| <b>Featured Stories</b>              | Displays rotating images, text and links from the Featured Stories list.  | These can be easily added using the <a href="#">Featured Stories</a> . They can also be easily added to a Class site using the Manage Site functionality. See <a href="#">Create a Class or Group Site</a> .             |
| <b>Form Viewer</b>                   | Displays generic forms allowing to capture user feedback or any type of data.   | For how to install and configure this app, see <a href="#">Form Viewer</a> .   |
| <b>Google Calendar</b>               | Displays a Google calendar on a site.   | For how to configure the Google calendar, see <a href="#">Google Calendar</a> .  |
| <b>Instagram</b>                     | Displays an Instagram feed on a site.   | For how to configure this app, see <a href="#">Instagram</a> .   |
| <b>Media Gallery</b>                 | Displays pictures and video on a site.  | For how to configure this app, see <a href="#">Media Gallery</a> .   |
| <b>Site Directory</b>                | Lists sub sites, pages and content within (below) the current site. Useful for creating a site index page for a section with sub content. For instance, it provides similar contextual navigation items as the left side navigation. Can display multiple levels so users can jump straight to content. | For how to install and configure this app, see <a href="#">Site Directory</a> .  |
| <b>Special Announcements Summary</b> | A summary of special announcements.   |  |
| <b>Twitter</b>                       | The Twitter app displays a list of tweets from a Twitter account or the results of a twitter search.  | For how to install and configure this app, see <a href="#">Twitter</a> .   |
| <b>User Directory</b>                | A directory of users in the district.   | For how to install and configure this app, see <a href="#">User Directory</a> .  |
| <b>Weather</b>                       | Adds a weather widget to the page, displaying local weather.  |  |
